

## LITERARY NOTES.

MM. Erekmann-Chatrian have produced a new play called "Les Rantzen," which has been accepted for representation by the Theatre Francais.

A new edition of the English work, "Copinger or Copyright," has just been issued. It includes references to the recent report of the Royal Commission, and gives a view of copyright law in foreign countries.

Mr. Francis Turner Palgrave's long praised "Golden Treasury of Songs and Lyrics" it is reported, has been republished at Boston, and furnished with many additional notes, with the view of introducing it as a text-book in Indian schools.

The *Leaving* learns that a movement is on foot to start a Browning Society for the study and discussion of the works of Robert Browning and the publication of essays on them and extracts from works illustrating them. Mr. Furnival is a leader in the project.

A volume of the letters of Alexander von Humboldt to his brother Wilhelm was issued recently at Stuttgart, under the direction of the members of the family living in Ottomanch, Silesia. It is said to throw much light on the intimate life of the author of "Cosmos."

The *London Graphic* will be represented during the tour of the Marquis of Lorne through Manitoba and the Northwest by Mr. Sidney Hall, who has been invited to accompany the expedition by the Governor-General of Canada. Mr. Hall was the Prince of Wales' special private artist during the tour in India, and his sketches during the Franco-German war attracted much attention.

The Editor of *Scribner's Magazine* received not long ago a paper which had been written on invitation by the late Dean Stanley. The desire to make early use of the manuscript was defeated by the inability to decipher the handwriting, for the late Dean wrote a character that most at times have been a sore puzzle to himself, when the matter of his discourse was not fresh in his mind. The paper will be returned to England to be deciphered by some one familiar with his handwriting.

Professor Silvyn Colvin's biographical sketch of Walter Savage Landor will be the next volume in the "English Men of Letters Series" of which Harper & Brothers are the American publishers. It will make one of the thickest books of the set, with 224 pages, and will not be behind any of them probably in interest, for Landor was a picturesque character, and anecdotes and quaint incidents cluster about his name. Professor Colvin, in his preface, declares his obligation to Mr. Robert Browning, who allowed him access to the books and manuscripts left to the poet by Landor, including Landor's annotated copies of some of his rarest writings.

MISS NOTTS English and French Family School for Young Ladies, 33 Wall Street, New Haven, Conn., for the winter months, 21, will include courses in instruction. CHARLES E. WESI, Principal.
